# Indonesia's Tax Treaties, with Full MLI Integration

Anti-avoidance rules, permanent establishment definitions and dispute resolution, discover exactly how MLI modifies each of Indonesia's tax treaties.

Indonesia has entered into tax treaties (P3B) with dozens of countries. However, since the entry into force of the OECD's Multilateral Instrument (MLI), countless treaty provisions have been modified and keeping track of those that remain applicable is complex.

Perpajakan DDTC is the only Indonesian platform that presents the Indonesian Tax Treaty alongside its MLI modifications, allowing users to review the effective, updated treaty position, not just the original text.

## Features

- ▶ Full list of Indonesia's tax treaties (P3B), all in one place
- ▶ Article-level MLI tagging, instantly identify which provisions are modified
- ▶ Toggle MLI on/off, compare original vs. post-MLI treaty text side by side
- ▶ DDTC expert notes, embedded directly within each treaty article

## Ideal for:

- Transfer pricing teams
- Regional finance and treasury teams
- International tax counsel
- Multinational enterprises operating in Indonesia

# Look up any Indonesian transaction. Understand the tax treatment. Instantly.

Practical guides for every Indonesian tax scenario.

Understanding Indonesian tax laws is one thing. Applying them effectively is another. Perpajakan DDTC's Tax Guides bridge that gap, covering 4 key areas every practitioner needs:

## Transaction Tax Guide

The tax treatment of 90+ specific types of transactions in Indonesia, ranging from dividends, royalties and property transfers to imports, crypto services to franchise regulations. Look up any transaction, discover the answer.

## Tax Regulatory Recaps

Indonesian tax rules span hundreds of sectors and transaction types. With 110+ topic-based recaps and counting, find everything that applies to your area of work without digging through multiple sources.

## Profession Tax Guide

Tax obligations for specific professions operating in Indonesia, relevant for expatriates, consultants, executives and business owners with Indonesian tax exposure.

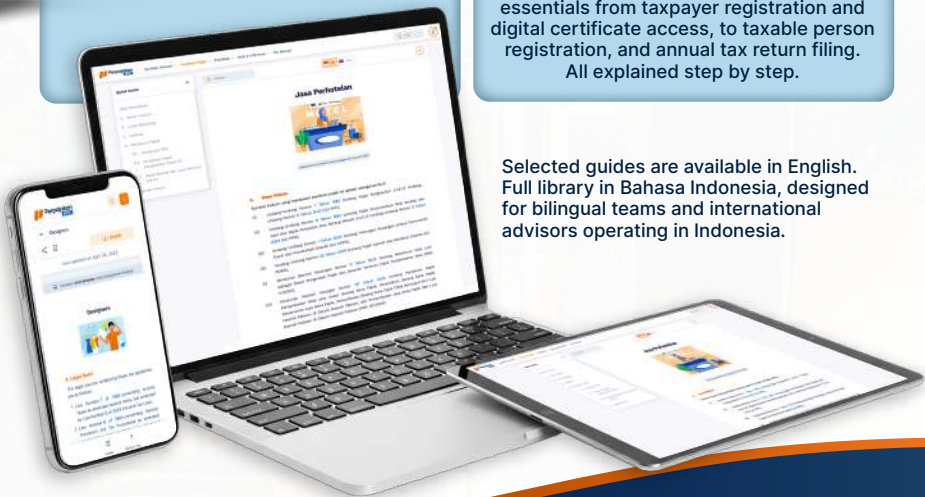

## Coretax System Guide

Indonesia has launched Coretax in 2025, a major overhaul of its national tax administration system that affects how every taxpayer registers, reports, and pays taxes.

Our Coretax Guide covers the practical essentials from taxpayer registration and digital certificate access, to taxable person registration, and annual tax return filing. All explained step by step.

Selected guides are available in English. Full library in Bahasa Indonesia, designed for bilingual teams and international advisors operating in Indonesia.

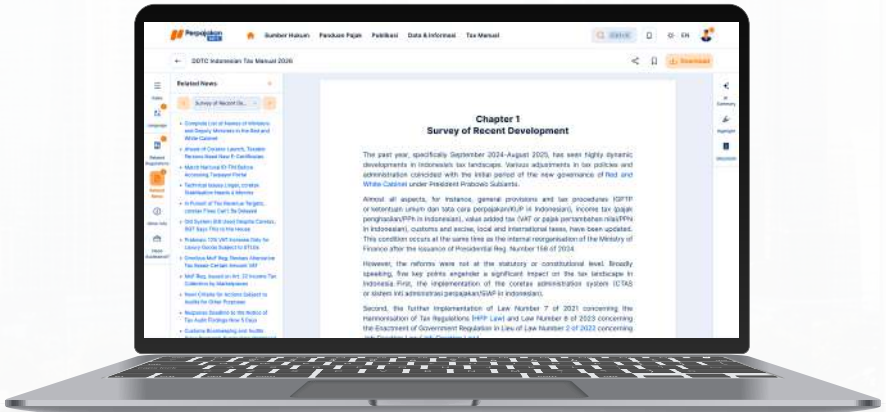

# Everything about Indonesian Tax, in One Manual

The definitive bilingual reference for Indonesia's tax system.

The DDTC Tax Manual is a comprehensive, structured summary of every major tax type in Indonesia, written for professionals seeking in-depth insight on tax without ambiguity.

Available in both Bahasa Indonesia and English, the Tax Manual covers the full lifecycle of each tax: legal basis, taxable objects, rates, exemptions, compliance obligations and administrative procedures.
