Greetings

DDTC is a privately held company based in Jakarta, Indonesia and specializing in the field of taxation, both domestic and international.

Tax is an inseparable part of business transaction. As these transactions are increasingly becoming more complex due globalization and cross-border businesses, the clarification of tax implications cannot merely be considered based on general or superficial knowledge at the level of informal courses as offered by many institutions in Indonesia nowadays. We offering a vision which makes us leading firm and excellency in the field of international and domestic taxation in order to contribute better ideas for Indonesian taxation.

We have three things that differ us with other institutions in Indonesia. First, our synergy of multitalented professionals. We understand that the best way to provide our clients with responsive quality services is to assign the most qualified multitalented professionals.

Secondly, as a research, technology and knowledge-based institutions. We have been successfully applying knowledge management in the firm. We invest in our human capital, assuring they have access to worldwide knowledge and comparative level of expertise. Because we believe, our worldwide tax knowledge is our clients' advantages. We also believe applying smarter technologies will help our clients create such high levels of experience that together we set new standards in the realm of taxation.

Why We Differ

Set the Standards and Beyond

Our breakthroughs serve as a reference for all tax stakeholders.

Academics-Practice Balance

Our high standards enable us to produce results that are not only thorough, but also feasible for practical matters.

Multidisciplinary Expertise

Wide-ranging perspectives enable us to comprehend the complete picture of an issue and generate comprehensive conclusions that may effectively address the problem.

Robust Experience

Over the years, we have proven indisputable contributions to the development of the Indonesian tax landscape.

Comprehensive Data & Literature

Our data and literature enable us to master the knowledge of tax principles, theories, international guidelines, scholar opinions and tax cases, both domestic and international.

Strong Networks

We are closely linked to both domestic and global tax stakeholders in engaging with tax issues.
